

SUCCESS MEANS...

Spend quality time in the **INSTRUCT** and **PRACTICE** modes of each lesson before attempting your homework assignments.

Understand what question is being asked before working through the problem.

Commit to **study** in shorter, more **frequent intervals** rather than one long period of time.

Certify independently to test what you really know.

Explain Error is available in PRACTICE mode. Use this to help yourself learn from your mistakes.

Seek assistance from the **Interactive Tutor** in PRACTICE mode for step-by-step guidance for solving a problem.

Submit Certificates on time.
